

Policy Statement

Our goal is to “Take care of our customers.” We are accomplishing this by being the safest, highest quality, lowest cost, most productive, and most profitable bar mill in the world. We are committed to doing this while being cultural and environmental stewards in our communities where we live and work. We are succeeding by working together to continually improve our management systems in order to produce quality steel that meets our customer’s requirements while maintaining our commitment to prevent injury, promote health, prevent pollution, and comply with all applicable legal or other requirements.
