

NUCOR

BAR MILL - AUBURN

Nucor Steel Auburn, Inc.

April 27, 2010

To All Prepaid Truck Customers:

The May 1, 2010 fuel surcharge for prepaid truckloads from Nucor-Auburn will increase from at \$.29 to \$.32 per mile.

The Department of Energy's (DOE) National Average for April 26, 2010 is \$3.12/gal.

Nucor-Auburn is using the DOE diesel fuel National Average at the end of each month to calculate the Nucor-Auburn Fuel Surcharge for the following month. We use \$1.50 as the base for fuel indices and we assume a fuel efficiency rating of 5 miles/gal. Mileage is based on practical miles using PC Miler Ver. 22.

Example: $\$3.12 - \$1.50 = \$1.62/\text{gal}$
 $\$1.62 / 5 \text{ gal/mile} = \0.32

For your reference the DOE diesel fuel National Average is published on:

<http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp> .

We thank you for your business, and if you have any questions please contact your District Sales Manger or your Inside Sales Representative at (800) 424-1494.

Sincerely,

Nucor-Auburn
Ted Jeske
Sales Manager
